Response Rate				Mean	STD	Median
20/25 (80.00%)				4.15	1.35	5.00

8 - How well do you feel you learned the subject matter from this course?	
Response Rate	8/25 (32%)
<ul style="list-style-type: none"> • I learned most of the material from her response to what I would submit. • Not as well as I think I would have if the class had not been online. • Well • fair • I learned very well in this course! • I feel I learned most of it. • Very well! • I feel like I learned the material in a very practical matter for other courses or work I might encounter in the future.

Response Rate: 20/25 (80.00 %)

9 - What did you like about this course?	
Response Rate	9/25 (36%)
<ul style="list-style-type: none"> • I liked the convenience. • We had enough free space to decide what we wanted to focus on for our topics. The fact that we really had no restrictions made it fun and interesting. • The tests could be taken two times. • The time that was giving to complete the assignments. • I loved the research project we were able to do and how we could choose our own topic. It was very helpful to me. • Everything was alright. • I learned a lot about the research process and I can use what I learned in future courses. • I feel as if i could have been interested in the material in the course if it was taught in a reasonable manner. • The research that went into the course was my favorite part. 	

10 - If you could pick one or two ways to improve this course, what would they be?	
Response Rate	9/25 (36%)
<ul style="list-style-type: none"> • Not online. • I would ensure that the class meets at least once a week, and I would make sure the highest test grade was counted, not just the last one. • I think it is just fine the way it is. • I think I would have been able to better understand the presented material if it was being taught in a classroom setting. • No improvement! I love it just the way it is. • Nothing it was a decent class. • I think it would have been better in class. • There is little to no teaching in this course. There are no PowerPoint, no examples or anything. We are expected to read very lengthy chapters (2 at a time) and take tests on them without any assistance from the teacher. I personally had never cited in APA and we were specifically instructed not to ask her for help or submit an assignment early and ask if it was correct. Grades take weeks at a time to be posted and there are a ridiculous amount of assignments. • I think that having it online did take a little bit away from the course. 	

11 - In what ways did the instructor facilitate student online participation/engagement?	
Response Rate	7/25 (28%)
<ul style="list-style-type: none"> • She would always give us feedback. • By sending out emails • She would asked feed back from students to other students in the class. • Through discussion boards • We had to comment on every student's discussion board post, and it had to be advice for how they could improve their paper. • We are expected to read text and take tests. No teaching took place. • By always have some type of question for us to work on on BB.

12 - Any additional comments?	
Response Rate	7/25 (28%)
<ul style="list-style-type: none"> • Wonderful lady with passion for her job. • Thank you for the informational e-mails, even if some of it wasn't quite about class but more about our safety. It truly showed that you cared about your students even though you never met us in person. • None • Dr. Barrett-Fox is an excellent instructor. She was very helpful to me and really cares about her students. • This class was awesome and my professor was amazing. I would definitely take her again. • I can tell she knows a lot about this subject and genuinely cares about her students. She wants everyone to succeed! • N/A
