8 - How well do you feel you learned the subject matter from this course?	
Response Rate	14/33 (42.42%)
<ul style="list-style-type: none"> • I feel that I learned this subject matter well, could have learned it better, but with five other classes and work, you learn to take time out to do various things. • I do not think I learned the subject of this course very well • Very well • I honestly do not feel like I learned anything from this course. It does not relate to my field of study. • N/A • I did not learn from this class. • This was a very pleasing course Dr. Fox was a great Teacher • I had a hard time with this course but it was nothing the instructor was doing wrong, she helped me as best she could. I just couldn't grasp what I was being taught. • Well. • I feel that I learned a lot in this course. • Very poorly. The instructions were very hazy and unclear. • I feel that I do better in a class room. • Not very well at all. • I feel like I learned the material pretty well it is just a tough concept to understand. 	

9 - What did you like about this course?	
Response Rate	12/33 (36.36%)
<ul style="list-style-type: none"> • I liked the Cayuse Training for this course, I thought that was interesting to accomplish. • I learned how to use research databases • Nothing. • N/A • I did not like anything • I like the information I learned. It was very informative for my degree. • methods of doing specific and detailed research. • Helping me graduate. • I liked all of it. I was very interested in the course. • Neutral. • I like learning about the difference material that the researcher had written. • I like how many assignments there were gave us opportunity for a lot of points.

10 - If you could pick one or two ways to improve this course, what would they be?	
Response Rate	14/33 (42.42%)
<ul style="list-style-type: none"> • I would not improve anything, everything was great the way it happened. • I would want a more clear explanation for each assignment • Nothing • Better instructions for assignments. • I would not have this course online. • I would add more than just tests and make the tests more from the book and from readings and not just from the air. • NOTHING • I would prefer being in a classroom setting for this course, but that is my personal opinion. • N/A • A little less reading and writing due to my course load. • Don't have it online if this professor is teaching it, and give more detailed instructions in regards to assignments. • Study more over the material and take more notes. • Quiz and test questions are sometimes too vague and can be between two answers. Makes it difficult to know what the professor wants and even harder to make a good grade. Its understandable that a professor would want to write their own test questions, but at least provide clear and concise questions and answers • The questions on the tests should not be handwritten from the teacher. 	

11 - In what ways did the instructor facilitate student online participation/engagement?	
Response Rate	13/33 (39.39%)
<ul style="list-style-type: none"> • Dr. Barrett-Fox facilitate student participation/engagement by seeing that we logged in twice a week and that we turned in our week on or before the due dates • we had a discussion board for questions • Discussion • Instructor did not. • The instructor had an open discussion board. • none! • She was very informative on her information. Her lectures were very interesting and informative. • We did discussion and we did test. • N/A • She used the discussion board in blackboard. • Very vaguely, by hosting a discussion board where students could talk with each other. But the discussion board was just used to ask questions that nobody knew the answers to due to the cloudy instructions. • I would rather have a teacher that I can see and talk to in person and by phone. • Discussion boards

12 - Any additional comments?

Response Rate

8/33 (24.24%)

- All in all, this was a great class and she is a great instructor, I would definitely take one of her classes again!
- I feel like this should not be required for my field study. I was very disappointed in this class. I feel that I did not learn anything but was just stressed out for months.
- N/A
- this class was horrible the teacher was not helpful and the class was horrible
- I love this instructor she has always been awesome.
- I really loved this instructor and felt that she was genuinely concerned for me during my illnesses this semester.
- I like Sociology classes, but this one disappointed me. I spent more time trying to piece things together rather than spending that time to learn the materials.
- This was a good class to learn from, it covered a lot of good material that was very helpful that can be useful daily.
