8 - How well do you feel you learned the subject matter from this course?

Response Rate 10/32 (31.25%)

- Fairly well
- Even though I had many things to do at this course, I feel I have learned a lot of things.
- I learned a wealth of information about this course.
- Very Well
- Extremely well!
- Well.
- I feel I learned this in a unique manner that will allow me to remember it for a long period to come.
- I was much more comfortable exploring the subject matter through online learning than I would have been in person.
- Very well
- I don't think I really learned to much in this class. I probably flunked it and will have to retake it. She gives us to much work in one week for an online class. she has to realize that her class is not the only class that we are taking. She makes us do to many discussion boards plus reading a book with like 20 chapters and gotta write a essay over each odd chapter that's just none sense. I hate this class with a passion

9 - What did you like about this course?

Response Rate 10/32 (31.25%)

- Eye opening
- I like the way the the instructor set the course up. I knew each week what to expect.
- Course helped give insight to different ideas and opinions. Also helped give a look into issues that are big in the headlines and some that are not
- The different topics we discussed
- I loved the content! I never got bored with what was going on. There was always something interesting to be working on, but always enough time for everything.
- The texts.
- The instruction was different then most courses
- This course was interesting and I really enjoyed the learning atmosphere
- The way she grades assignments and gives them
- Just learning about the different sexualities

10 - If you could pick one or two ways to improve this course, what would they be?

Response Rate 8/32 (25%)

- Less discussion boards
- N/a
- I've had classes in the past where the instructor would contribute to student forum posts every now and then, just slight replies -perhaps only a time or two during the entire semester. This seemed to affect how seriously students took the prompts on the forums. More thoughtful answers facilitate better discussion.
- There was a lot of writing for this class. Maybe make the book and films due on opposite weeks of each other and limit the amount of discussion boards.
- It was very good.
- I can not find anything negative about this course
- I wasn't much of a fan of discussion boards, but I don't know what I would replace them with.
- None

11 - In what ways did the instructor facilitate student online participation/engagement?

Response Rate	8/32 (25%)
---------------	------------

- She emailed us on occasion with what was happening in our news
- The discussion board was one way that student participation took place.
- N/a
- Forum posts were a great way to handle the subjects in this course.
- Discussions
- 3 DBs were required each week.
- Discussion boards are required but I was unsure how they were graded so I didn't do every single one of them. Had it been explained how the discussion boards were graded/how many points they were worth then students probably would have done more of them.
- discussions
