8 - How well do you feel you learned the subject matter from this course?	
Response Rate	10/26 (38.46%)
<ul style="list-style-type: none"> • Very well. The Professor teaching method always makes me leave my 'safe' zone box and go outside to learn things I didn't expect. • GOOD • Extremely well. • pretty well! • Very well • na • I feel I learned a lot. So many things we read about that was a surprise to me. I enjoyed the course! • I learned a great deal ! too many to mention • I feel like I learned much about the subject matter from this course. • I felt that I did learn the course. However, this class should be in class course instead of online due to all the course load. 	

9 - What did you like about this course?	
Response Rate	10/26 (38.46%)
<ul style="list-style-type: none"> • I LOVED it. I have taken the professor before and I always learn and when I do I have to talk about it to my family and friends. Plenty of time to do assignments. Fair grading. • everything • The design was incredibly tailored to the online format and it worked very well. • we were given options on what work we wanted to do. if there was a post or article we were not comfortable with, we were allowed to skip it as one of our ten skips. • The subject matter • na • I liked that the instructor give us enough time for our assignments and I didn't feel so rushed. • that it forces us to think outside the box and face fears we may have had from past experiences and that we are not alone in the world of so many things that may go wrong along the way. Important infor that every single person needs is in this course. • I liked learning about different perspectives. • I loved learning the subject of this course and having my opinions pushed beyond my boundaries. 	

10 - If you could pick one or two ways to improve this course, what would they be?	
Response Rate	10/26 (38.46%)
<ul style="list-style-type: none"> • NOTHING • N/A • I wish the professor would participate on discussion boards, but I understand that time constraints make that difficult. • none • na • The only thing I didn't like about the course were the peer reviews. We had to review others work and turn it in. I feel that some of the students we're a little harsh in their reviews, so I feel that should be changed. Other than that, I really enjoyed the class. • nothing • The workload was equal to a graduate level class. I could have produced better quality work if the workload was decreased slightly. • The course load is way to much for it being an online course. And some of the stuff is due in a not timely manner. • Some of the content was a bit explicit for me to read and engage in.

11 - In what ways did the instructor facilitate student online participation/engagement?	
Response Rate	10/26 (38.46%)
<ul style="list-style-type: none"> • Makes me think. Go digging for more information on what we are learning about. • N/A • Graded responses to students' discussion posts; required discussion. • peer reviews, • Discussion boards and peer reviews • na • We were given discussion boards every week. • she was always available and understood our weaknesses and helped us along the way be better and she encouraged us to share and if we couldn't, that was ok too! • She facilitated student participation by requiring peer reviews of work and discussion board assignments. • The instructor did participate in the student't online participation however, it is very hard for this being an online course. 	

12 - Any additional comments?	
Response Rate	9/26 (34.62%)
<ul style="list-style-type: none"> • The final project - a powerpoint that has to be designed in a certain way really makes me not like the class. I mean aside from that it was very interesting material. • If I can fit in my schedule will take more classes from this professor. Always learn something new and makes me think. • N/A • no • na • I feel I learned a great deal in the class and I would definitely take this instructor again if she was teaching a class I needed. • love this instructor • It would not let me access my homework until i took this survey. I did learn in methods that it is unethical to force someone to take a survey. subjects can always so no. • The work load for this class was intense. However, I learned a lot. I'm conflicted as to weather it was too much. I spent many many many many hours on the assignments.
