8 - How well do you feel you learned the subject matter from this course?	
Response Rate	10/18 (55.56%)
<ul style="list-style-type: none"> • I feel that I learned this subject matter very well. • I love this class... I learned a lot and I enjoyed it! Hard work but I love the way her class is setup! • Not well at all. The entire course was a struggle to figure out what I was to do and how the instructor wanted it done. • very good • n/a • The only subject matter I learned was in each book I choose to read out of her list. • Very well. • I feel like I am very well informed on this topic now. It is a broad topic and the professor did a fantastic job of covering all of the bases. • I fell like I learned the subject matter well. • I feel that I learned from this subject very well. 	

9 - What did you like about this course?	
Response Rate	10/18 (55.56%)
<ul style="list-style-type: none"> • Although there was a lot of reading, I did enjoy most of the books required for this course. • The journal film entries! • Nothing. • it was online • n/a • N/A • I enjoyed being able to pick the books we wanted to read and videos as well. • Everything! I really enjoyed it. • I loved the lectures. I liked how we were able to pick a book from a list. • I like liked how interesting the material was 	

10 - If you could pick one or two ways to improve this course, what would they be?	
Response Rate	8/18 (44.44%)
<ul style="list-style-type: none"> • One less book, maybe remove the book assignment for week 7. • Simplify the assignments. A book a week, plus 3 discussion post, plus notes over every other chapter of the read book, plus notes over a film, plus a course project is too much work for one class. This is a class that has been overly complicated to the point that I have neglected other classes to try and keep up with this one. Even the syllabus was complicated and hard to follow. I emailed the instructor for clarification and the reply I got contradicted what she was telling me on the weekly assignments feedback. This class is not structured effectively. The book students had to read often did not match the objectives for the week and often times was not even about the same thing. I know the instructor was trying to be sensitive to students that might have a hard time with the material, but if the students are that sensitive I would think they would not pick this course. • na • n/a • More instruction and less reading of books. • Nothing, it was great. • I would not improve anything. • No help needed
