8 - How well do you feel you learned the subject matter from this course?	
Response Rate	12/32 (37.5%)
<ul style="list-style-type: none"> • I definitely feel like I learned the subject matter very well. • Very well. • Fair • Very well • Well; I learned much new information through taking this course. • I feel great about what I learned for this subject • I feel like I know a lot more about the course material now than before I started. The assigned readings/videos were informative and effective teaching tools. • I learn so many things this in this class. • I feel I learned major life differences in this subject. The instructor gave plenty of material to help guide me through this course. • Very Good • I think I learned the material well. • Extremely well. With numerous books, films, and discussion boards assigned throughout the semester, I am walking away with so much more information surrounding sociology of sex than I had going into this course. 	

9 - What did you like about this course?	
Response Rate	13/32 (40.62%)
<ul style="list-style-type: none"> • I really enjoyed the film journals. • I liked that it was somewhat self-guided and you're able to choose the material you'd like to read/view. • Talks about sex and misconceptions about people and sexuality. • No proctorU • I really enjoyed all the different books that were required for the course. They expanded my knowledge on the subject. • The syllabus is very cut and dry. You know what to expect each week and get in a routine for that. • I loved the work in this class and Dr. Barrett-Fox is wonderful • I liked most of the assigned readings/videos with exception to a few. • How open it was this was amazing class. • What I liked about this course was everything the instructor offered to help aid me in the learning process of this course. She done an excellent job! • Very Well • I liked the diversity of topics in this course. • I really enjoyed the readings. They really helped me analyze some concepts I had not even considered.

10 - If you could pick one or two ways to improve this course, what would they be?	
Response Rate	13/32 (40.62%)
<ul style="list-style-type: none"> • I loathed the discussion boards! One or two a week that is mandatory for all students to comment on would be a better way to get student involved. I really like seeing other people's viewpoints. I just did not care for the discussion boards. • I would provide some examples of infographic posters to help students understand what exactly it is. • Nothing. I have really enjoyed this course so far. • Better and clear instructions. Wish she was more organized. • Nothing • While I liked most of the videos, it was very hard to find ones that were accessible by the end of the course. A lot of the movies were through subscription based services. Having a wider selection of free videos and podcasts to choose from would be great. • nothing!! I love her class • I have enjoyed this course as a whole. However, I think there are a few things that could make it better. First, I had difficulty locating many of the assigned videos. One week I had to pay to rent a documentary, which is something that I didn't expect that I'd have to do for a college course. Another week, I had to sign up for a free trial of Amazon Prime. Making videos more easily accessible would make the course even better. Also, though I was aware of this before the class started, in my opinion, the amount of required reading was excessive. I liked most of the books that I've reviewed. However, it was quite difficult to turn in a detailed book review every 2 weeks in addition to the weekly video reviews. • nothing this class is great. • It's not the course that need improving, it was the textbook brokers who did not give me the complete resources needed for this course. The syllabus should go to them first so we as students will have the accurate material. • Very Good • It was an all-around good course. • A few of the discussion boards did not have directions as to what exactly should be discussed. I think most of us got by just fine, but it could have been helpful to have more direction in some cases. I just think some students discussed topics completely different than others in the same forum. 	

11 - In what ways did the instructor facilitate student online participation/engagement?	
Response Rate	11/32 (34.38%)
<ul style="list-style-type: none"> • Every week we have journals and discussion board posts, so it's always online participation/engagement. • Through discussion boards and having students peer review certain assignments. • N/A she just talked about current events in our email • Discussion boards • discussion every week • This class primarily consisted of online participation/engagement, as there were multiple discussion posts due each week in which we were required to engage our peers. • we had discussion question , she email us important things that was going on in the community. • The instructor engaged in feedback in order for me to make a better grade. Dr. Barrett-Fox also listened to me about the obstacles I have faced that effected my school work. • Very Well • The instructor provided useful and relevant information. • We definitely had to engage through the discussion boards. We could each learn about new topics and ideas together, communicating what we each found interesting or odd.

12 - Any additional comments?	
Response Rate	6/32 (18.75%)
<ul style="list-style-type: none"> • N/A • N/a • No • I would recommend her to anyone she is a wonderful teacher communicates well with all the students she really made my semester better because I started out on a rough patch. • Dr. Barrett-Fox is an exceptional instructor. She is extremely knowledgeable on the subject material. I appreciated the judgment free learning environment, as it allowed me to openly express my opinions and beliefs. I also appreciate that she takes the time to respond to any emails of concern. • This instructor is excellent for this course. I want to thank her for going above and beyond to make sure I understood.
