Response Rate	8/35 (22.86%)
<ul style="list-style-type: none"> • I definitely feel like I have learned more about this topic. I know more now than I did going in. • I don't feel it was helpful • I feel that I could learn more and better but it was good overall experience for me • It was good and learned it well. • I wasn't as focus as I should have been. • Pretty well • It was a lot but I feel like I learned quite a lot while taking part in this class. • The book was very helpful for this course.

9 - What did you like about this course?	
Response Rate	8/35 (22.86%)
<ul style="list-style-type: none"> • I liked the discussion board part of this course because it actually caused me to pay more attention to subjects and problems that are going on around the world. • Nothing • I liked the assignments and how they kept me interacted with the chapters • That studying hard and reading the course material keeps you well informed on the test. • everything • The flexibilty and set due dates • I liked how the teacher was always in touch with the class through email and on black board and was quick to answer questions when we had them. • How well my teacher responded to emails when I has a question. I actually dropped a class that I was taking online this year, because my teacher would not respond to my questions or answer phone calls. It was a nightmare. But Dr. Fox, was the exact opposite ,she responded quickly and was very helpful. 	

10 - If you could pick one or two ways to improve this course, what would they be?	
Response Rate	7/35 (20%)
<ul style="list-style-type: none"> • I felt like things may have gotten a little confusing at first, but they soon smoothed out. I would maybe just make instructions a little more clear from the beginning. • I would not do three assignments a week and leave it at two • nothing • n/a • Less discussion boards. I don't feel like they helped my growth in this class. • I would cut down on some of the discussion boards a little but that is probably just me it just felt like a lot of boards to get done when you have a full load of classes, a full time job, and a family to take care of, but again that is probably just me. • To not time the quizzes. 	

11 - In what ways did the instructor facilitate student online participation/engagement?	
Response Rate	6/35 (17.14%)
<ul style="list-style-type: none"> • participation on discussion boards, and response to emails. • By responding to each others work • Through test! • n/a • Discussion boards • She was great. 	

12 - Any additional comments?	
Response Rate	3/35 (8.57%)
<ul style="list-style-type: none"> • N/A • It was a good class • Just please instruct professors to email their students back. That is the only online problem I've had since taking them.
