### 8 - How well do you feel you learned the subject matter from this course?

Response Rate	20/38 (52.63%)
---------------	----------------

- I feel I have a great sense of some social problems that I really did not know existed, or that I have not been exposed too.
- This class was a broad subject, but I got what I wanted from the class. I am content with what I have learned from this class.
- Very well
- I feel that I learned a lot about many social problems in the United States and many other countries.
- Extremely well.
- Great
- I think I got the over all idea. A lot of this class is really just opinions and different point of views.
- I feel as if I learned as much as I could in this course. Dr. Barrett-Fox explained everything and really taught to the strengths of the students that were in her class.
- I feel that I did not learn the subject matter very well.
- I am confident in all the material that we covered over this semester. I learned the subject matter very well.
- I learned some of it but not being able to actually carry a conversation with the professor made it seem like a routine instead of a class.
- Decent i wasn't all that interested in the class because it didn't go with my degree.
- It surely opened my eyes to a lot of matter in the world and I feel as if I learned a lot from this course.
- I feel that I learned the subject material very well.
- I feel I have learned the subject matter fairly well.
- This is my second time taking this class (I dropped it last year) and I feel like Dr. Barrett-Fox was so much more prepared and helpful than my last teacher. I feel like I learned the material much more easily this time around.
- I learned a lot more in the course than I thought I would coming in due to the amount of participation
- I think I learned the content fairly well.
- I felt I learned a lot
- I feel like I learned the course content pretty well for the most part.

**9 - What did you like about this course?**

Response Rate	20/38 (52.63%)
---------------	----------------

- That it was convenient and worked well with my schedule.
- I am a very political person, and with the current state of our government, I got to explore the multiple social problems while gaining credit toward my minor.
- Everything
- I liked the discussions that we had on blackboard. It really gave students a chance to get to respond to each other about different problems in the world.
- I liked that I got to learn about social issues around the world and never took the initiative to not try and learn. I was always interested
- Discussion of news articles
- The teacher was very nice.
- I really enjoyed the discussion boards and I liked how Dr. Barrett-Fox gave us a wide range of assignments so that we could see what we did better in.
- I did not like anything about this course.
- I liked that the teacher is very keen on making sure that her students understand the assignments, and also makes it very clear on what we are expected to do and when the assignments were due.
- It was so easy I never studied
- I liked that she let you take the test twice to and get a better grade.
- The fact that I grew to be empathetic to different cultures and people I encounter on a daily basis.
- I liked that it was made to be very engaging and it made you think a lot and evaluate the world around you.
- I liked how she made videos to walk us step by step in the things that we might not know, to make sure we understand them more clearly.
- I liked the discussion boards and questions she poses.
- Learning more about how our society reacts to things
- I loved the material that was used throughout the course and how the instructor incorporated it.
- New information I didn't know before
- I liked that there was many assignments to do in the class so you can make up for assignments you don't do as well on.

### 10 - If you could pick one or two ways to improve this course, what would they be?

Response Rate	18/38 (47.37%)
---------------	----------------

- I would have example for the different types of writing assignment so that students will not be confused on what to do.
- Overall, I was very happy with the way this course was set up. Maybe have more tests and less writing assignments throughout the course.
- Nothing
- I didn't really like the viewing and reading journals. I didn't really understand how this was relevant to the class.
- Maybe not do so many reading and viewing journals. Or Maybe giving all of the reading and viewing journals but not a final project
- I think there was a lot of stuff due all at once, specifically the midterm project.
- I would not change anything about this class
- Less discussion posts, and less journals to do.
- I would not improve this course any. This course was wonderful to take.
- Have a few times that we met in class.
- Less discussion boards
- none
- Maybe not three discussion posts. It's a lot in one week. Especially the weeks where there are two chapters and you have make six discussion board posts and take two exams. It's almost overload.
- I think this course is fine just the way that it is in my opinion.
- nothing
- It was generally a good course as it was.
- Nothing
- I do not like how the discussions were set up. Started off on a certain schedule then it got changed mid semester which made it hard to keep up with. Also it was hard doing them without knowing if they were being done right or not the whole semester because we received no feedback or grade on them until the semester is over.

11 - In what ways did the instructor facilitate student online participation/engagement?	
Response Rate	20/38 (52.63%)
<ul style="list-style-type: none"> <li>• The instructor had discussion board assignments for students to participate and engage in conversation with one another.</li> <li>• Dr. Barrett-Fox took an initiative to give us office hours and even respond to emails outside of her office hours. She also asked for the general student's opinion on how the class should be set up when planning the syllabus. I feel like she truly cares about her students.</li> <li>• Discussion board posts were a main form of online participation.</li> <li>• She reminded us that the tests were every week. The instructor also very quick to let students know when she would be available to email.</li> <li>• We did weekly discussion boards and were expected to post and reply to two peers and that got conversation going between us students. Our instructor would also post questions that we could respond to in a discussion board and I liked that because in a way it was like we weren't doing it alone.</li> <li>• Discussion boards</li> <li>• black board discussions and emails</li> <li>• Dr. Barrett-Fox sent us emails to help remind us of assignments. She also helped explain assignments in further detail when we had questions.</li> <li>• N/A</li> <li>• She made made several assignments where we had to critique and also comment on other classmates assignments to make them better and also encourage them on the work that they presented in the message boards.</li> <li>• They had a predeveloped Syllabus and assignment schedule.</li> <li>• Discussion boards</li> <li>• I could facetime, call her as well as get responses to my emails</li> <li>• Discussion boards weekly</li> <li>• She assigned weekly discussion boards to gage our participation and understanding of this course.</li> <li>• She created online discussion posts and questions and other activities for the students in our class to engage each other is questions and topics that pertain to our current chapters.</li> <li>• Discussion questions and discussion board, exams, etc.</li> <li>• All topics were relevant and real and the instructor made sure that real life issues were the basis of discussion.</li> <li>• Discussion boards</li> <li>• There were many discussion boards we had to participate in.</li> </ul>	

12 - Any additional comments?
